Cooperation Agreements in Energy and Environment Areas Signed with Singapore Governmental Organizations

In order to promote projects in the energy and environment fields, NEDO recently signed cooperation agreements with the National Research Foundation (NRF), the Singapore Economic Development Board (EDB), the Building and Construction Authority (BCA), and the Public Utilities Board (PUB). With future implementation of projects in third countries in mind, joint activities will be carried out in Singapore to build on broad-based relations between Japan and Singapore.

An overview of the agreements, which were signed on November 15 and 16 in Singapore by Mr. Takefumi Fukumizu, President of NEDO, and CEO-level personnel of each organization, follows below.

- NRF: Memorandum of understanding on comprehensive cooperation in research and development of energy, environmental and industrial technologies
- EDB: Memorandum of understanding on comprehensive cooperation in joint activities in the field of urban solutions and smart communities
- BCA: Memorandum of intent to conduct joint activities in Singapore using green building technologies
- PUB: Letter of intent to jointly implement projects for industrial wastewater treatment
